ATT: Human Resources Department

Dear Sirs,

It is a great interest for me to apply for a potential position within your esteemed institution that complies with my potentials, experience and education.

The extensive experience I gained with many reputable companies such as “Everteam Global Services” and “ICAD - KSA” and through working as a Freelancer in Web Development and Server and Database Administration from 2011 till present, gave me an excellent foundation in Computer Engineering, Networking and Development Sector.

These experiences combined with my work ethics and interpersonal skills should make me an asset for your reputable company. My solid performance and rapid advancement demonstrate that I am able to give all my efforts for the institution’s objectives towards growth.

Thank you in advance for your consideration.

Sincerely

Ahmad Daghestani
